AT YOUR SERVICE

When we say that, we not only mean that we have a variety of meats for sale and that we have a crew of courteous salesmen who will attend to your wants, that is understood in any well regulated and enterprising market.

What we mean in addition, is this:

-That we have just installed one of the finest refrigerating plants in the country.

-That no shop in Nevada can compare with ours in any way. -That the equipment is the finest money can buy, and that it was

installed for the sole purpose of giving our patrons real service. -That all our meats are government inspected, being purchased from the largest and most sanitary packing house in Nevada, and shipped to us in refrigerator cars.

-That the Meats we sell are placed in sanitary glass refrigerator counters, where no flies can reach them; where no customer can handle them.

That we kill our own chickens and turkeys, but we first put them through a course of fattening that puts them in perfect condition for the table when they are dressed.

-That we buy in such large quantities that no other market can undersell us. This means that our customers are purchasing their meats at city prices.

All this is a part of the SERVICE we are giving our customers. When they patronize our market they are assured of not only getting the best for their money, but they are buying the cleanest meats that are obtainable anywhere.

When you think of our 'Market, think of the Sanitary Market. At your service with the Best at the Lowest Prices-ALWAYS

ANNOUNCEMENT

We are going to move to the Crumley Block on September 1st. This move is necessary in order to provide better facilities for hand ling our rapidly growing automobile and tire business. We shall make a feature of the Brunswick Tires which we are handling with a guarantee that every tire sold must give satisfactory mileage to our customers. The Brunswick-Balke-Collender Co. are well able to manufacture tires equal to any, and we believe they are doing it. It must be understood that the Brunswick is not a cheap tire, but, on the other hand, is a high class article made from the best of materials by skilled workmen. When you become dissatisfied with your tire mileage try one. We still have a few tires that went through the flood which we are selling at 20 per cent reduction. These tires are not damaged, but the wrappers were destroyed and they must be sold to prevent deterior.

We have one crackerjack Chevrolet 490 for \$500.00. It's worth more money. Come in and look at it.
